VOLUME CVII.--NO. 128. ALEXANDRIA, VA., MONDAY EVENING, MAY 28, 1906. PRICE 2 CENTS.

MADE FROM NATIVE ROOTS.

SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women.

Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit Mich.

Plea of Princess Prevailed.

The first notable act of Princess Ena of Battenberg since her arrival in Spain to become the bride of King Alfonso XIII has been to induce the King to pardon Fernando Levera, who was condemned to death after an exciting trial.

The dramatic circumstances under which pardon was given, as the condemned man was going to the gallows, attracts widespread attention and further augments the popularity of Princess Ena.

Levera was to have been executed in the neighboring town of Badajoz, but the population solicited Princess Ena's intercession, and she spoke to the King, who consulted with his ministers, and after a cabinet council the government resolved to grant the request, as it was the first petition the princess had made in Spain.

Thereupon the King issued a pardon, and a telegram announcing this fact reached the prison at Badajos half an hour before the time set for the execution. The march to the scaffold was to begin when a messenger brought word of the pardon.

There were remarkable scenes of rejoicing. The townpeople formed a procession and sang the praises of there Queen-to-be. The people of Madrid also highly approved the princess' humane intervention, and the newspapers comment upon the coming Queen's first act as being one of mercy.

Another River Mystery.

The body of a woman, perhaps 25 years old, small, slight in build and dark of complexion, was found in the Harlem river in the upper section of New York yesterday. She weighed about 100 pounds and was about 5 feet 4 inches tall. Apparently she had been rather comely. Twisted slightly around the neck of the body was a thick cord, of the kind used along the Harlem river for tying bundles of laths. It was deeply imbedded in the swollen neck. Coroner Schwaneke discovered also that there was a large bruise on the left side of the head. It might have been caused before or after death. The only clothes on the body were a black and white striped shirtwaist and a black skirt, both of poor material. There was no under clothing, shoes or stockings. Charles P. Moore, a private watchman saw the face of the dead woman and said she was the wife of a canal boat captain. The watchman, who said he had been with her on March 19, was detained. The autopsy determined nothing definite, except that the body had been in the water a long time, perhaps two months. It could not be told whether the woman had been murdered or whether she had committed suicide. The coroner thinks she had been murdered.

A Mountain Peak Falls.

A great peak slipped from its dizzy eminence and went crashing to the foot of the mountain Friday night at Oneida, Pa. The mountains in that district are almost perpendicular in their rise from the level, and tower above the village 1800 feet.

The top was one giant mass of rock, and this projected outward, making it impossible to scale by mountain climbers.

While the real cause of disturbance which loosened it from its moorings Friday night is unknown, it is believed to have been the result of an earthquake, which many of the community say they felt after midnight.

The great peak, embracing probably a thousand tons of rock, left its place and moved forward, then down the mountain side with a mighty roar, shaking the earth, startling the inhabitants of the village and cutting a deep ravine on the mountain top.

Huge bowlders, weighing hundreds of tons, which stood in its path, were either swept along with the mass or scooped through, while the heaviest trees were crushed like wheat before the mower. The villagers were awestruck.

Feminine Pyjamas.

At a very exclusive little shop a rash young man was moved to enter because of the silken pyjamas displayed against a dainty lingerie.

This inoffensive male inquired the price only to be sternly informed that "This is not a gentleman's shop," whereupon he fled before the wrath in the assistant's eye. But he did learn one thing. He learned that the bifurcated sleeping garment is not confined to the masculine element.

In fact, one firm recently filed an order for half a dozen pyjama suits for a fashionable woman. They were of palest shades in silk and embroidered in flowers. It seems the fair ones are particular about the little coat pocket, and the smart thing is to have a handkerchief to match each suit.

A good complexion is impossible with the stomach out of order. If pasty sallow people would pay more attention to their stomachs and less to the skin on their faces, they would have better complexion. KODOL FOR DYSPEPSIA will digest what you eat and put your stomach back right in shape to do its own work. Kodol relieves palpitation of the heart, flatulence, sour stomach, heart burn, etc. Sold by W. F. Creighton & Co., 401 King St.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, MAY 28, 1906.

AS REPRESENTATIVE of the beef trust Speaker Cannon, Senator Cullon and Representatives Madden and Lorimer, of Illinois, went to the White House Saturday to ask President Roosevelt to consent to a modification of the meat inspection provision, adopted by the Senate Friday as an amendment to the Department of Agriculture appropriation bill. They want the cost of inspection, which the bill saddles on the packers, to be tranferred to the government. It was a fine illustration of the manner in which leading members of the two houses stand ready to rush to the defence of an outlaw corporation the moment its interests are threatened. In this case Speaker Cannon and his companions could assert that the packers are their constituents, and therefore that they appeared in the performance of their duty to those who aided in electing them to Congress. Nevertheless, the impression created was decidedly disagreeable. It is understood that in presenting the packers' plea to the President, the four statesmen argued that if the packers are compelled to pay the inspection charges, they will either deduct them from the prices they pay for cattle, or add them to the prices charged for dressed beef. In either event it was urged that the public was likely to suffer more than if called upon to pay the money in taxes. That such an argument could be used, but shows how absolute is the power of the trust, and how defenseless, to the present time, the public.

THAT THE railroad rate bill is now in the most dangerous situation of its legislative career is the general opinion of its friends. Distrust of the House conferees and of the purposes of the House leaders grows as the situation is analyzed. Suspicion is strong that the bill is to be used by the republicans as a pawn in the game of politics. Amendments will be retained or stricken out in conference to suit the needs of the party in this fall's congressional campaign.

A DISPATCH from Manila says Datto Ali, the leading Mindanao insurgent, who was reported killed on October 22, 1905, is declared on good authority to be still alive. It is said he is now with Dattos Enok and Parradock, organizing an insurrection. They are said to be buying rifles and ammunition. Such telegrams must sound familiar in Spain, which country, up to 1898, had been for four hundred years fighting Filipinos reported to have been killed.

THE pension list, it is said, is decreasing, but not so the pension pay roll and the G. A. R., will see that the annual pension appropriation keeps at high water mark. In the House last Friday Mr. Campbell, of Kansas, urged the passage of a bill, giving all persons who served 90 days or more in the military or naval service of the United States, a pension of $12 per month. The passage of such a bill would hold the Treasury for a while.

THE Court of Appeals having granted an appeal in favor of Henrico county in the Richmond annexation case, which was decided by Judge Nicol in favor of Richmond, other annexation movements, it is more than probable, will cease till the Richmond case is finally decided.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, May 28.

The trial of George E. Green, of Binghamton, N. Y., formerly a New York State Senator, and Willard D. Doremus, of this city, on charges of bribery and conspiracy in connection with the sale of the Doremus cancelling machine to the Postoffice Department, was begun before Justice Gould this morning. Both men pleaded not guilty and the empanaling of a jury was proceeded with. The venire being exhausted at 11 o'clock, the court took a recess until afternoon. This is Green's second trial in the postoffice cases, he having been acquitted on the previous occasion, when the charge was a similar one in connection with the sale of a time recording device.

The Senate committee on the judiciary today made a favorable report on the bill defining the right of immunity. The bill provides that "immunity shall extend only to a person who, in obedience to a subpoena, gives testimony under oath or produces evidence, documentary or otherwise, under oath." This bill is the result of the recent failure of the government, under existing laws, to bring to punishment officers of the packing companies in the trial of the beef trust cases in Chicago.

More beef inspection conferences were held at the White House this morning, Senator Carter, Labor Commissioner Neill and Senator Beveridge all having chats with the President about the bill, which if passed will place the stockyard and packing houses practically under governmental supervision. After his talk with the Executive, Senator Carter said that unless the bill which went through the Senate as a rider to the agricultural appropriation bill is defeated the President will probably not make public the report which was prepared by the Labor Commissioner after a careful investigation of the stockyards. This report, it is believed, would result in a wave of indignation passing over the country and its natural consequence would be the diminution in the consumption of all kinds of fresh meats.

By a party vote, the House committee on the election of the President, Vice President and members in Congress, today ordered a favorable report on the bill by Representative Gaines, of West Virginia, providing publicity as a preventive for fraudulent campaign contributions and illegal expenditures of money in federal elections. The bill provides all campaign committees either for the election or nomination of Congressmen, shall file statements with the clerks of the United States District Courts, and that all expenditures over $10, shall be on vouchers.

Attorney General Moody at the close of the last session of the Supreme Court of the United States today addressed the court and presented an information in the matter of the lynching of Ed Johnson, the negro, who was taken from the custody of Sheriff Shipp, at Chattanooga, the evening after a stay had been granted by the Supreme Court staying Johnson's execution, pending his appeal from a denial of a writ of habeas corpus in the United States Circuit Court. Attorney General Moody rehearsed the facts in the case and stated that he did not wish to bring the facts of the murder of Johnson to the attention of the court, that being a matter for the State authorities. Only the matter of the contempt by Sheriff Shipp, and others who were accused of being in collision were presented to the court for consideration. Chief Justice Fuller said the information would be received and made returnable the second Monday in the next term. The Attorney General's information contains the names of Sheriff Shipp, two of his deputies, and some 20 citizens of Hamilton county Tennessee alleged to have acted in collusion to cause the death of Johnson. Under the courts order, a rule will issue directing these persons to appear before the court on the 2nd Monday of next term and show cause why they are not in contempt of court.

That the United States Government intends to make good its ultimatum that there shall be no revolution in Panama on account of the coming elections in that republic, was revealed today in the announcement that the cruiser Columbia has arrived at Colon. She left League Island last week with 400 marines aboard and with her ostensible destination as Guantanamo. It is learned now that she only touched at that port, and proceeded at once for the Isthmus. Her force of marines and sailors will be ample to cope with any revolution that dissatisfied Panamanians may care to start, and it is believed that her presence will serve to prevent such a movement.

There will be no insurance legislation at this session of Congress. The "model insurance bill," introduced by Mr. Ames, of Mass., and considered by the House committee on judiciary, will not be reported to the House. The reasons assigned are that the subject is too complex and important to be disposed of in a hurry. More time is needed and the matter will come up again at the next session. The Ames bill proposed the regulation of insurance companies in the District of Columbia along lines approved by insurance commissioners of the States and the President of the United States. It was designed to serve as a model after which to pattern legislation throughout the States of the Union.

The U. S. Supreme Court today, in the case of the New York Central & Hudson R. R. Co., versus the State Comptroller involving the constitutionality of the New York state franchise law, upheld the law and affirmed the judgment of the New York Court of Appeals. The company claimed that the imposition of the New York State tax on its entire rolling stock was illegal. Nearly a million dollars in taxes is affected by the decision.

Congressman Jones, of the First Virginia district, has just returned from an electioneering trip through that district and will start out on another tomorrow to be gone a week. He says he feels confident of a renomination and reelection.

The Senate committee will consider the Jamestown Exposition bill tomorrow and, it is said, will favorably report it.

The streets of this city presented a dreary appearance today, the rain, which was much needed, keeping many people indoors.

The President today sent the following nomination to the Senate: To be Commissioner of Fish and Fisheries, George M. Bowers, of West Virginia; to be Postmaster, Archibald M. McClintic, of Fincastle, Virginia.

The State Department this morning received from United States Minister Combs, at Guatemala a dispatch stating that a revolutionary party was gathering troops on the frontier near the Mexican border and that a serious revolution was expected.

Colorado Elks intend to have the most unique entertainment at the great Elks' reunion to be held in Denver next July that has ever been given on the American continent. Prepartions are being made to give a monster parade which will have many unique features.

There will be a delegation of Elks from Honolulu, the most distant lodge in the world from the scene of the reunion.

There will be several tribes of Indians marching in the parade, and it has been arranged to bring down from the mountains along the new "Moffat Road" several carloads of snow, which will be hauled in floats in the line of march under the July sun.

The snow is found sixty miles from Denver at an altitude of 11,600 feet, beside the railway track, and its appearance in the parade will stamp the pageant as one of the most novel and remarkable that has ever been known in the history of the country.

The Elks of Colorado have raised the sum of $100,000 to spend in the entertainment of the visiting Elks, and the city will be magnificently decorated and openhanded hospitality will prevail.

Lynched.

Wadesboro, N. C., May 28.—About 1 o'clock this morning a mob took John V. Johnson, a white man, charged with the murder of his brother in law, G. Wynn Johnson, from the jail here and carried about a quarter of a mile from the town, they hanged him, and riddled his body with bullets. The jail doors were broken down. At the last term of court there was a mistrial in the case, eleven jurors standing for murder in the second degree, and some for manslaughter.

None of them will die.

A syndicate of business men of Washington, has purchased the property at the northeast corner of Fourteenth street and Pennsylvania avenue, for $300,000. A fine hotel, to cost $400,000, will be erected on the site. The ground was owned by Capt. Joseph E. Willard, former lieutenant governor of Virginia. The new hotel will be known as the Warwick, and will be designed to be the finest of its size south of New York.

Part of an old brick foundation wall, being torn down to make room for the new Trinity-Boreel Building, that is to run from Broadway to Church street, along Cedar, New York, collapsed at an early hour yesterday morning, burying a number of workmen. To make matters worse, the wall broke the water main on Temple street and the flood soaked the sandbank and filled the excavation with water. One man was found two hours after the accident dead from suffocation in the water-soaked sand, and several others had narrow escapes from drowning. Quicksand, which has caused several cave-ins at other places which are being dug out for skyscrapers in that section of the city, caused the trouble.

Distressed Russia.

At the end of a memorable seven-hour session, Saturday, the lower house of parliament indignantly rejected the government's policy as presented by Premier Goremykin, and, with only seven dissentinent voices, voted a lack of confidence in the ministry, practically throwing down the gauntlet to the bureaucracy with a demand for the retirement of the present cabinet and its supersession by a ministry approved by the majority in the house. The spirit of absolute revolution is in the air and a conflict between the crown and the nation now appears to be inevitable. While the house avoids the appearance of delivering an ultimatum, the government seems to have no alternative except surrender or war. The gloomiest forebodings were everywhere expressed last night and the general impression is that the country is on the verge of a titanic struggle, which may be delayed, but not averted.

The Czar and his bureaucratic advisers, startled by the bold revolutionary action of the lower house of parliament, have not yet determined the next move.

Constitutional democratic members of the Douma say that if the government dismisses parliament revolution will follow.

New York Stock Market.

New York, May 28.—The room traders who contribute the greater part of the business of the stock market, turned to the bear side this morning, and were aggressive sellers of stocks during the first hour; causing moderate declines. A good deal of importance was attached to published statements that President Baer, of the Reading, might be named as successor of Mr. Cassatt as head of the Pennsylvania system. Commission house business was small. Taken altogether, the market was extremely dull, and almost wholly professional.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give you One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggies, 75c.

Mrs. Gaines, a hospital attendant, testified that Miss Jones had said to her that Chairman Sadler, by his method of cross-examination, would make any one lie, and asserted that Mrs. Gaines had lied during her examination.

Special Elections.

In a decision in Winchester Saturday, Judge Frank Christian, of Lynchburg, who presided in Judge Atkinson's place sustained the demurrer filed in answer to the bill of complaint in the contested local-option election case at Winchester and dismissed the complaint. The local-option election was held in Winchester on March 22 last, and resulted in a victory for the "wet" ticket by a majority of 51.

On the grounds that the election was illegal and that fraudulent voting was permitted, the Anti-Saloon League filed notice of contest, one of the most important averments being that persons were allowed to register and vote who had not paid their poll tax six months prior to the date of the election.

Judge Christian, after having heard arguments, decided that the payment of poll taxes six months prior to an election is applicable only to general elections for members of the legislature and city and State officers, and that the new constitution omits to provide the prepayment of poll taxes as a prerequisite to the right to vote at special or local option elections.

He further declared that he could not in his opinion inquire into the matter of false and illegal registration in a case contesting an election.

The court also decided he could not inquire into the validity of the writ of election, which the complaint alleged was valid. He considered the meaning and extent of the constitution to be that the registrars shall have an absolute and unappealable power to register whom they see fit.

The election was held under a ruling of Judge Atkinson, of the corporation court, that poll taxes could be paid at any time before the day of election, and Judge Christian decided that he had no authority to overrule Judge Atkinson. A similar ruling had been given by Circuit Judge Thomas W. Harrison.

The constitution permits of no appeal in a case like this, and the matter is now settled.

Judge Christian's ruling that the prepayment of poll taxes as a prerequisite to the right to vote at special or local option elections has established a new rule governing special elections in this State. Unless adopted by the Virginia courts, the decision may lead to an amendment to the constitution. In any event, the decision will cause the Virginia legislature, two years hence, to enact a new law governing the qualifications of voters at special elections.

Today's Telegraphic News

Killed in Collision.

Louisville, Ky., May 28.—The breaking of a flange on a coach of a Louisville & Nashville passenger train from Knoxville, caused a wreck in the Louisville & Nashville yards, this morning, in which probably a dozen people were killed and thirty injured. The mangled condition of the bodies makes identification difficult. The wrecked train consisted of a combination baggage and postal car, a smoker, day coach, and two sleepers. The train was running at fifteen miles an hour, and had just entered Louisville when engineer J. B. Keyer, who in thirty-four years service had never had a wreck before, heard the flange break. Instinctively he applied the emergency brake. The engine and baggage car remained on the main track, but the coaches and sleepers left the track, and crashed into a string of freight cars. In a moment they were smashed to kindling wood, and the pasengers, who a moment before were preparing to enter on their business in the city, were mangled corpses or fearfully injured or pinioned in the wreck. Nearly every one in the smoker is believed to have been instantly killed. Toose in the second coach were injured. The sleepers were unharmed. Coroner Kelly estimates the dead at twelve, injured at 25.

Disorders in Russia.

Sevastopol, Russia, May 28.—The latest investigation shows that five persons were killed and fourteen were wounded in the bomb outrages perpetrated yesterday by terrorists. The object of the bomb throwers was to kill General Nepludeff, commandant of the garrison here, but he escaped unhurt.

Warsaw, May 28.—Sixteen terrorists, armed with revolvers, attacked the manor house at Kluczkowicz in the government of Lublin, seeking money for the revolutionary cause. They seized 2,000 roubles and tried to escape, but the son of the landlord pursued the gang, armed with a rifle, and succeeded in killing six of the men. The others made their escape.

St. Petersburg, May 28.—The Douma resumed its session this morning with perfect calmness. It has been expected that after the excitement of Saturday's session, when the deputies carried a vote of lack of confidence in the government, there would be some echo of the turmoil which prevailed then, but with fine self-control, the assembly proceeded quietly to take up the regular order of business.

The Approaching Wedding.

Madrid, May 28.—Princess Ena is still being received with the greatest enthusiasm. The Princess asks that her first act after her marriage to King Alfonso will be a visit to Escorial and place wreaths upon the graves of Alphonso XII, and Queen Mercedes. The wedding cake of Princess Ena, which was made in London, arrived this morning. The cake is of such enormous proportions that it was impossible to take it inside the palace without cutting it. The cake was accordingly cut in four pieces and an artist was engaged to put it together again after it had been taken inside the palace. The supply of hair dressers in Madrid is so limited that many aristocratic women who expect to attend the wedding festivities have found it necessary to make arrangements to have their hair dressed tomorrow in order to be accomodated. They will be obliged to sleep for the following two nights in extraordinary positions in order not to disarrange their coiffures.

Death from Excitement.

New York, May 28.—While fire was raging in the fashionable apartment house, The Brittany, No. 241 west 102nd street, early today, Charles K. Northrup, an investment broker, died of heart disease. The excitement had been too much for him. The fire started in the trunk room in the basement and when the firemen entered the place they were overcome by gas and were rescued with difficulty by their comrades. The flames had melted the pipes, permitting the gas to escape. All of the twelve families occupying the building escaped, though many of them were taken down ladders by firemen. During the excitement attending the blaze, thieves began to operate and valuables in one or more apartments were taken.

Abandoned and Waterlogged.

New York, May 28.—The steam pilot boat New York towed into port today the schooner Annie Lewis abandoned and waterlogged. The vessel evidently had been in collision, as the starboard side amidships was stove in, and the mainmast cracked about 15 feet above the deck. The Lewis was commanded by Captain Hougson and traded between New York and Virginia. She is lumber laden, and has a deck load besides. Apparently she was loaded in this trip at Norfolk. The whereabouts of the crew are unknown.

Resignation of Austrian Ministry

Vienna, May 28.—The ministry, headed by Premier Hohenlohe-Schillingfurst, has resigned. The quarrel between the Austrian and Hungarian cabinets over the subject of Hungary's tariff led to the resignation of the government. Emperor Francis Joseph yielded to the demand of the Hungarian ministers for separate tariff schedules for Hungary. This augered the government, which resigned.

Michael Davitt's Condition Critical.

Dublin, May 28.—The condition of Michael Davitt, the well-known Irish leader, who has been operated upon several times lately, is critical and grave fears for his recovery are entertained. At four o'clock this morning, Mr. Davitt was attacked with a sinking spell, and his condition became so alarming that it was thought he would not survive the night.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by E. S. Leadbeater & Son drug store. Price 50c

Royal Divorce.

Dresden, Germany, May 28.—On petition of Prince Frederick of Schonburg-Waldenburg the Pope has declared that the marriage of the Prince to Princess Maria Alicia de Bourbon, youngest daughter of Don Carlos, the Spanish pretender, is null and void. The decree was given on the evidence of seven physicians because the marriage was never consummated, consequently the child born since their marriage is declared illegitimate and is not entitled to bear the name of Prince Schonburg-Waldenburg.

The marriage of Prince Frederick and the Princess was contracted April 26, 1897, at Venice, Pope Pius X. who was then patriarch of Venice, performing the ceremony. The Union was not happy, and the couple separated in 1903. The marriage has furnished one of the greatest scandals of recent years among the European nobility. The Princess has recently brought suit to recover possession of the child and in her complaint, makes the astonishing assertion that Prince Frederick is not the father of the child.

Fifty-ninth Congress.

Washington, May 28.

SENATE.

There were presented to the Senate today over thirty-five thousand petitions from women organizations and others protesting against Senator Smoot, of Utah, retaining his seat. They came from Minnesota, Indiana, New Hampshire, Kentucky, Alabama, North Carolina and Kansas.

The Senate by resolution called upon the President for the confidential report of the Keep governmental commission on the crop report investigation.

When the Senate took up this afternoon the Dick resolution, restricting the purchase of Panama canal materials to articles of domestic manufacture unless the President shall deem American bids exorbitant, it met with emphatic democratic opposition. Mr. Rayner declared that although the resolution would benefit the Maryland Steel Company, which was the lowest American bidder for two dredges, he could not subscribe to the policy. He characterized the resolution as an attempt to rob the treasury, and declared that the democratic party would be carried down to irretrievable defeat and doom if it gave the policy its support.

HOUSE.

The House concurred in the amendments to the denatured alcohol bill. It will become law with the President's signature. The contention of its advocates is that it will cause great loss to the Standard Oil Company, by replacing kerosene and gasoline as illuminants by denatured alcohol.

The House without opposition agreed to the Senate amendments to the bill providing for the fortification of pure sweet wines, a measure aimed to benefit the California wine makers.

Senate amendments to the bill increasing the duties of the Census Office by collecting statistics on crime and banks were agreed to.

Mr Sanley, democrat, Kentucky, moved to discharge the committee on the judiciary from further consideration of his resolution directing the President to send to the House the evidence against the tobacco trust now in the possession of the Department of Commerce and Labor. "Neither the Standard Oil nor the Pennsylvania Railroad nor any other combination of men, outside of the penitentiary," Mr. Stanley said, "has so openly violated the law as the American Tobacco Company for the past two years." Mr. Stanley spoke for thirty minutes, and the matter was then dropped.

TELEGRAPHIC BREVITIES.

A disastrous fire has occurred at the Yubarri colliery in Hokkaido, Japan. Four hundred and eighteen buildings were destroyed and nine miners were burned to death. The damage is estimated at $80,000.

With the throat cut from ear to ear, besides seventeen stab wounds in various parts, the body of a man was found this morning on the sidewalk at New York avenue and Carroll street, Brooklyn. Beside the corpse lay a case knife and a stiletto. There is no clue to the murderer or murderers.

The steamer Mabel Wilson went down off the breakwater at Cleveland, Ohio, this morning in the gale which prevailed all night. One sailor was drowned.

The Annexation Case.

The Court of Appeals allowed an appeal Saturday to the county of Henrico against Richmond in the recent annexation case tried in the Circuit Court of Henrico first before Judge Garrett, and then before Judge Nicol, when the city won at every point. The application for appeal was made by L. O. Wendenburg, Commonwealth's Attorney for the county, and Braxton and Williams for the same, and it will be argued at the fall term. The main points at issue are profound questions of constitutional law rather than matters of fact. This is the first of these cases to mature for the Supreme Court under the new act of assembly, and the decision will determine the status of several cities in the State in the matter of extending boundaries.

Five Killed by Lightning.

During a ball game in an open field thre miles from Mobile yesterday afternoon a thunderstorm came up, accompanied by vivid lightning, which struck in the midst of the crowd of spectators, instantly killing five and injuring some 25 more or less seriously.

At least 15 or 20 others were shocked and knocked down by the stroke, but they quickly recovered and were able to leave the scene. The field was strewn with bits of shoes and clothing from those who were killed or seriously injured, and the bodies of the dead presented a terrible spectacle, being burned in numerous places. A silver dollar taken from the pocket of one of the victims was melted on both sides.

Letter to C. R. Hooff.

Alexandria Virginia

Dear Sir: A banker's business is to know pretty much everything. Here's a part of it, well worth anyone's knowing.

Devoe lead-and-zinc is the paint that takes fewer gallons than mixed paint and wears twice as long as lead-and oil. Our agent sells it under this guarantee:

"If you have any fault to find with this paint, either now in putting it on, or hereafter in the wear, tell your dealer about it.

"We authorize him to do what is right at our expense."

If you yet your house painted with it, and it wears no better than most lead-and-oil, you will have good cause of complaint; and we must pay damages.

This is the paint that looks as good, and wears twice as long, as lead-and-oil.

Yours truly,
F W DEVOE & Co.

PUBLIC AUCTION.—By virtue of a decree of the Corporation Court for the city of Alexandria on the 24th day of April, 1906, in the chancery cause therein pending under the style of J. Albert Henderson vs. Annie S. Memorial Services.

Alexandria and Belle Haven Councils, Junior Order of United American Mechanics, followed their annual custom in decorating the graves of the deceased members yesterday. A committee from the respective councils visited the various cemeteries in the morning and decorated the graves of all deceased members, the graves being also appropriately marked by an emblem of the order surmounted with a United States flag. At 4 o'clock in the afternoon a specially prepared exercise was carried out in the Methodist Protestant Cemetery. Mr. James R. Mansfield, Past State Councilor of Virginia, presided. The list of the deceased members were read by Messrs. Samuel E. Wade and W. A. Harding; this was followed by the Jr. O. U. A. M. memorial address by Mr. L. D. Lyles, followed by singing "Jesus, Lover of my Soul." Dr. W. F. Fisher, pastor of the First Baptist Church, then delivered the principal memorial address which was listened to with close attention by the large audience. His remarks were highly edifying and most impressive. After singing "Nearer my God to Thee, Mr W. A Harding read the closing Jr. O. U. A. M. address. Rev. C. D. Bulla, pastor of the M. E. Church South, offered prayer and pronounced the benediction.

The ceremonies will be in charge of Rev. Dr. Williams, rector of Trinity, and archdeacon of the diocese, who is especially interested in deaf-mute missions. The preacher and interpreter will be Rev John Chamberlain, D. D., vicar of St. Ann's, the late Thomas Gallaudet's church, and a number of clergymen will take part, several of whom are mutes. Mr. Flick will be assigned the southern field now covered by Rev Oliver J. Whilden, who will conduct regular Sunday services in Washington and Baltimore and travel through Maryland, West Virginia and Kentucky. Hammers.

Hammers are represented on the monuments of Egypt twenty centuries before our era. They greatly resembled the hammers now in use, save that there were no claws on the back for the extraction of nails. The first hammer was undoubtedly a stone held in the hand. Claw hammers were invented some time during the middle ages. Illuminated manuscripts of the eleventh century represent carpenters with claw hammers. Hammers are of all sizes, from the dainty instruments used by the jeweler, which weigh less than half an ounce, to the gigantic hammer of shipbuilding establishments, some of which weigh as much as fifty tons and have a falling force of from 90 to 100. Every trade has its own hammer and its own way of using it.

Legend of Sambur Lake.

One of the features of Jeypore, in India, is the wonderful Sambur salt lake, concerning which there is a curious legend. The story runs that an old fakir long ago told one of the rajahs that if he wanted to be rich he should ride a horse as far as he could go without once looking back, and the land as far as he could travel would become a field of silver, always provided he did not turn. He rode for thirty miles, and then, curiosity overcoming him, he looked back, with the result that instead of the promised field of silver he found a lake of salt.

The Father of Science.

Hippocrates is looked upon by anatomists as the father of the science. He died in 377 B. C. The modern science began in Italy in the thirteenth century. The first anatomical plates, designed to show the size and relative position of the bodily organs, were prepared and colored by Titian. All the great painters and sculptors have been careful students of anatomy. Michael Angelo, Raphael and Leonardo da Vinci were noted for their anatomical researches.

James Lick's Test.

This is told of James Lick, the eccentric San Francisco millionaire, who founded the famous observatory bearing his name. When taking any one into his service he always asked the person to plant a tree upside down—the roots in the air, the branches underground. If there were any protest the man was at once sent away, Lick saying that he wanted only men who would obey orders strictly.

Beatification Services

The ceremonies attendant upon the beatification of 16 Carmelite nuns of Campaigne who were guillotined during the French revolution took place in Rome yesterday in the presence of a large number of French and Spanish pilgrims, who remained in Rome after having been unable to see the Pope on May 20, the occasion for the beatification of the Dominican monks who lost their lives in Tonquin.

St. Peter's Cathedral was specially decorated for yesterday's celebration with paintings representing the martyrdom of the nuns and miracles wrought by their intercession. The morning function consisted of the celebration of mass and the reading of the decree of beatification to the public. In the afternoon the Pope decended into the church with the usual solemnity. Ten thousand tickets had been issued for the services.

The Pope appeared not to be as well as usual, but his satisfaction because of his ability to attend the ceremony was evident. The beatification of the nuns is noteworthy as being the first honor of the kind bestowed upon martyrs of the French revolution, and the occasion is regarded as having been opportune. The Pope selected the cases of the nuns out of 153 approved by the Congregation of Sacred Rites. After the ceremony the Pontiff showed signs of exhaustion and retired immediately to bed.

Haakon's Coronation.

The coronation of King Haakon of Norway, next month is to be a most solemn and elaborate function. The Norwegians, seeing that they have unmade a sovereign and called another to the throne, cannot be said to entertain too considerable a respect for the divine right of kings; but they do attach significance to their coronations. When the King of Sweden was King of Norway also, they insisted that there should be two coronations—one for each country. And when King Oscar received his crown from the Norweigan nation, thither goes King Haakon. They bless his robes and lay them on the altar; they bless his crown and sceptre; they bless his person; they bless everybody and everything associated with the ceremony. Then the bishop of Drontheim places the crown upon the monarch's head, and the Ministers of State present him with the sceptre, the sword, the apple and the key, and he is king indeed. It is all very solemn and impressive, and one can only hope that the jolly young sailor King will be able to preserve his gravity throughout the old-world ceremony.

Husband Wiggled His Toes.

In her action for divorce brought in Cincinnati Saturday, Anna Lorenz alleges that William Lorenz was guilty of extreme cruelty in "that he would sit in his bare feet and work his toes in the presence of her company for the purpose of mortifying and humiliating me." There was no question of his not knowing any better, continues the petition. "Because he never did that when we were alone. He would return from the city on Sunday afternoons and exchange his good clothes for working clothes, and then after removing his shoes, would come into the parlor where my girl friends were and proceed to wiggle his toes."

BUILT UP HER HEALTH

SPEEDY CURE OF MISS GOODE

She Is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Miss Cora Goode, 255 E. Chicago Avenue, Chicago, Ill., believes it her duty to write the following letter for publication, in order that other women afflicted in the same way may be

benefited as she was. Miss Goode is president of the Bryn Mawr Lawn Tennis Club of Chicago. She writes;

Dear Mrs. Pinkham:—

"I tried many different remedies to build up my system, which had become run down from loss of proper rest and unreasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia E. Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.
